University of Macedonia: In the foreground of a changing world.

In a rapidly changing world, the University of Macedonia (UoM) is aware of its obligation to be in the foreground of innovation, extroversion and excellence in terms of social sensitivity and inclusion. Heading for its seventh decade of operation, the UoM is currently developing into an internationally-oriented, innovating institution, placing teaching and research as its highest priorities rooted on solid and transparent assessment criteria.

At the same time it is a well organized, functional, ecologically-minded and student-friendly institution, defining its own identity, which is acknowledged by both the local and the wider Greek society.

The UoM interacts both with the local society and the international academic community in order to adapt to the new era relying on the core values of open dialogue, cooperation, equal opportunities and forward-looking perspective. We are convinced that no progress is worth making, if it cannot be shared with the wider society.

Professor Stylianos D. Katranidis
Rector

GENERAL INFO

The University of Macedonia is the second and relatively younger University in the city of Thessaloniki, specializing in economic, social as well as sciences of information and art.

A state-funded University (Presidential Decree 147 / 10.04.1990), it is the evolution of the renowned Industrial School of Thessaloniki, which was originally founded in 1948, and its first students were admitted in the academic year 1957-1958. Currently, it has over 12,000 students.

The primary goal of the University is to attain educational quality of the highest standard. Quality is reflected in the high level of graduates and faculty members, their contribution to the global academic community with prestigious international publications, innovative teaching methods, modern infrastructure and highly qualified administrative staff. By developing new and upgrading existing curricula of undergraduate studies, organizing postgraduate studies of the highest quality and encouraging scientific research, the University of Macedonia aspires to become one of the highest-ranking Universities in the Balkans as well as in Europe, in the areas of its expertise.
